

CHANGE IN ACCESS POINT TO RIFLE RANGE – EFFECTIVE AUGUST 1, 2018

TO THE MEMBERSHIP:

Over the past several years the Board of Directors has engaged in an evaluation of things that will make the Club a better place for our members. A focus of that evaluation included the security of Club facilities. The Board determined that it was advantageous that all persons using Club facilities would enter and exit from the same location – the main entrance off Trindle Road.

To make that possible, we have enhanced an existing road that runs from behind the Caretaker residence to the Rifle and Pistol Range. Effective August 1, 2018 we will close the entrance from Byers-Boyers Road to the Rifle and Pistol Range, and all persons will enter through the main driveway. To access the Rifle and Pistol Range turn right in front of the Caretaker residence and follow the signs. The chain and combination lock for the Range will be at the tree line behind the Caretaker residence. Multiple turn-outs have been installed so vehicles can pass. The road is passable for all types of vehicles, including cars. However, please treat all Club facilities as if they were your own – as a member, they are.

Remember that the Rifle Range is for members only, and not for guest use.
