Welcome to the 2021 CPSL Winter Skeet League. Due to the unprecedented consequences of the Covid 19 pandemic, our 2020 schedule was cut short. The good news is if we can shoot in 2021, we will have extra monies for the banquet.

Due to health concerns, we will implement a couple new rules for the 2021 season.

- **Food will not be provided**
- **Masks are required to enter the clubhouse**
- **Practice social distancing always**

We suggest you enter the clubhouse to sign it, pay and select squadding for the following shoot; no loitering inside the club house. **Shoot & scoot is the new motto.**

Additionally, we are implementing a new scoring methodology in order to provide all shooters with more opportunities to make the bi-weekly Club Top 5 Team during the season, as well as the season ending Club plaque and winning individual HOA & Class awards. We will utilize (3) 50-bird scores at each shoot instead of the traditional (2) 50s scores. By doing so, we have increased a shooters "chance" for a better score by 50%. The (3) 50-bird scores would comprise Rounds 1 & 2; 2 & 3; and 3 & 4. This would provide a shooter (24) scores if they participate in all eight league shoots instead of the traditional (16) scores. For season end award calculations, we would utilize your best (18) scores instead of the traditional (12) best scores. For each bi-weekly shoot, the Team scores would still comprise (3) 5-person highest individual scores for Rounds 1 & 2, 2 & 3, and 3 & 4.

Example of how this could positively impact an individual shooter. Shooter A's scores one week are 24 / 25 / 25 / 24. Traditionally they would tally (2) 49s. Under the proposed change they would tally (2) 49s and (1) 50 so they improved their bi-weekly tally. This method does not guarantee a 50% improvement, only a 50% chance of improvement. If this example was 25 / 24 / 24 / 25 their best scores would still be (2) 49s along with (1) 48 so their tally did not improve for that shoot. But it could still improve their season end tally if that 48 score was better than

another score used in the final tally. We perceive no downside other than additional reconciliation on the Secretary/Treasurer's part.

As in years past, we will continue with an (8) shoot season, with three shoots each held at two Clubs with the 3<sup>rd</sup> Club holding two shoots and the banquet. This year Cocalico and Carlisle will hold (3) shoots each and York Adams will hold (2) shoots and the banquet. The 2021 schedule is below.

The entry fee for 2021 remains at \$25 for adults; any junior shooter will shoot for free (we have a couple members who have volunteered to cover the cost of all junior shooters). We will continue the optional Lewis Class Purse, with the fee of \$5.00 per shooter (no Juniors). The number of classes will be based upon five scores per class and could be altered due to lack of shooters; (1) winner per class, and in the case of ties within the class, (2) winners will be determined by long run, equally dividing the class prize money. All prize money will be a credit to be used at an upcoming shoot; unused credit will be paid at the end of the season.

In addition to the Team, High Overall, and Runner-up awards, we will have individual prizes awarded to HOA in Classes AA, A, B, C, D, & E. Individual awards for HOA in Class AA, A, B, C, D, & E, with your season ending Class based upon your best 18 (50s) and averaged and classed from the NSSA 12 Gauge Classification table.

As is seasons past, there are no Sunday 9:00am and 3:00pm squadding. This can be modified only by the host club due to weather related issues.

Regards,

**Andy Trayer**  
**CPSL President**

**Mark Hildebrand**  
**Secretary/Treasurer**  
**(M) 610-812-4446**

make-ups or shooting ahead. Shooting all 8 events (800 targets) will result in (24) scores rather than 16 in years past. You must shoot a minimum of 6 shoots (600 targets) to be considered for any individual or team awards. We will record your best 18 scores instead of the traditional (12) best scores. (600) targets earn you two tickets while (500) targets earn you one ticket to the season ending banquet.

The top (5) highest individual scores of each Club/Team at each shoot will count as the Club/Team score. Club/Team scores will be cumulative throughout the season to count as the Club/Team final score to determine the League Champion.

Individual awards for HOA in Class AA, A, B, C, D, & E, with your season ending Class based upon your best (18) scores.

Pre-squadding is required, but walk-ons can be added to open spots if available. However, the host club is not required to remain open for walk-ons after the last pre-scheduled squad of the day is finished. Please call the club representative or clubhouse for availability if you have not pre-squadded. Remember, the Sunday 9:00am and 3:00pm squadding has been ELIMINATED.

Field assignments are determined and subject to change by club management in the best interest of efficient operation, not subject to preference of the shooters. For inclement weather questions contact the club representative or clubhouse. Once the first squad begins shooting on either day, that entire day is considered official and all scores shot will be recorded. If no squad begins on a day due to bad weather, then it is officially postponed. The host club will schedule a make-up date, before the next shoot, for only those shooters who were originally pre-squadded for the postponed day. No other shooters can shoot the make-up day.

**NSSA rules will be followed and enforced, including mandatory eye and ear protection.**
